**21st March**- GMU students celebrated the Iranian New year Nowruz

# Trip to Turkey

SPRING BREAK 2019

"I really enjoyed our trip to Istanbul, which was a good mix between an educational and a leisurely experience. We were able to visit some of the most famous and interesting landmarks of the city such as the Blue Mosque and the Hagia Sophia...Our visit to Acibadem in particular was very enlightening as we got a taste of the healthcare system and practices of Turkey...The city and all its sights was a very culturally vibrant experience where we were able to get a taste of the Turkish way of life. This was definitely an experience I will never forget and would recommend to students in the future."

Arfa Pasha - 2018m027

"I enjoyed the trip to its fullest. The destination is wonderful, the residence is great. The hospital visit to me was the main highlight of the trip. Truly a dream to work there. The facility, the staff, all were certainly of a high class. The equipment used, the technology, and the minor details in the infrastructure of the hospital were truly astounding. The trip was well planned..schedule for all the destinations were good and overall the trip was fantastic. Thank you GMU."

Harshavardhan Rajagopal -2018m053

"The Turkish trip in my opinion was very educative and fun...The Acibadem Hospital gave me a great insight regarding hospital with high level of hospitality, and that is important in the medical field...The most impressive thing was the fact that they had radiologic, dental and various recuperative facilities at the emergency area. To me it's impressive because it saves time, energy and increases the chance of survival of patients. I also enjoyed the cable car ride and snow. I would love to redo this with friends and family."

Soloye Oluwatobiloba Olawunmi -2017Pt41

"The Turkey trip was very enjoyable, with the visit to Bursa being the highlight of the week. The hospital visit was very informative and opened up possibilities of doing our post-grad studies in the country, as the facilities were very impressive. As for future trips, Italy or Spain would be great."

Sherwit Dafrawi -2015d013
