Over the years...

“

GMU is well on track to emerge as one of the best research and innovation based medical universities in the region. The university has etched its place on the global education map.

”

Founder's Message

The Gulf Medical University has surpassed many a milestones and created history in the medical education sector of the region, during its amazing journey spanning over two decades. As the first and only private medical university in the country, GMU has always fulfilled its role as a trendsetter in medical education, embracing change and innovation while staying firmly grounded on its core values.

By establishing the first private Academic Health System in the region, GMU has given new dimensions to its unique model of linking healthcare, education and research functions, immensely benefiting from the interactions between itself and its academic partners.

Today, GMU has not only emerged as one of the best research and innovation based medical universities in the region, but it has also evolved into one of the most preferred destinations for futuristic medical education, drawing students from as many as 80 countries spread over different continents. GMU plans to be a global player with presence in different countries.

GMU has been at the forefront of promoting student success, participation, diversity, collegiality, innovation and stewardship. We are a learning community that values scholarship and creative thinking, and we are uniquely poised to provide quality education to all our students, transforming them into medical professionals of the future.

Dr. Thumbay Moideen

Founder

President Board of Trustees

“

At Gulf Medical University, our focus is always on shaping the future of healthcare. Being a leading medical university with its own growing network of world-class academic institutions, hospitals and a dynamic research division, we are constantly endeavoring to transform the University into a vibrant Academic Health System linking the best of medical education, healthcare and research, manned by the finest professionals.

”

Chancellor

Gulf Medical University (GMU) established in 1998 is a leading medical university in the Gulf region. It offers Health Professions Education programs in the field of Medicine, Dentistry, Pharmacy, Physiotherapy, Medical Science, Nursing, Medical Laboratory Sciences, Anesthesia & Surgical Technology, and Medical Imaging Sciences. In addition, the university also offers Short Term Certificate Courses. GMU differentiates itself in having its own network of hospitals, clinics, labs and pharmacies.

The university programs are accredited by CAA (Commission of Academic Accreditation) Ministry of Education, UAE. Program learning outcomes defined as competencies are aligned with international competency framework. Gulf Medical University has a strong Alumni Network with over 1300 student already graduated from different medical programs, in addition to another 900 graduates under the Continuing Medical Health Education.

Prof. Hossam Hamdy
Chancellor

“

Our Niche is in the area of Health Professions Education and our strength is our own network of healthcare facilities including clinics, hospitals, pharmacies and laboratories. We employ our own Graduates.

”

Vice Chancellor Academics

You are about to begin a whole new chapter in your life that will forever determine who you will become. As you flip through the pages of this brochure, you will find all the information you need, to make an exciting journey towards a successful future in the health professions.

The programs offered by Gulf Medical University (GMU) are the best in the region and the focus is always on experiential learning, innovative techniques and research, with endless scope for innovation.

At GMU, we firmly believe that a health professional is successfully trained when he/she is introduced to patients and cases from the early years. GMU operates a network of academic, clinics, pharmacy and laboratories across UAE. Thank you for considering Gulf Medical University.

We hope to welcome you to the campus soon!

Prof. Manda Venkatramana
Vice Chancellor Academics

“

We want our research to matter, to shape futures, impact and solve real-life health problems, all to the benefit of the people of UAE. We want our research efforts to be sustainable and hope that our basic discoveries will lead to the development of translational technologies, which allow us to take them from the laboratory to the clinic. We firmly believe that through our regional and international collaborations, we can accomplish great achievements together

”

Vice Chancellor - Research

GMU integrated research to expand its contributions in medical sciences and research and has created in 2018 the Thumbay Research Institute for Precision Medicine (TRIPM). Engaging students in research, innovation, and scholarship is one of the hallmarks of GMU aiming at creating better medical thinkers and innovators. I envision this institute as part of GMU vital educational strategy to invest in modern biomedical research fields that may defy today's traditional academic classification. The institute aims to a regional leader in cancer and diabetes research. It is amongst the most technologically advanced center in the region with world-class equipment. It is a unique multidisciplinary research institute devoted to conducting, supporting, and encouraging a comprehensive and translational research programs in

cancer immunology, cancer biomarkers, tumor and cell biology. It will facilitate capacity building and promote interdisciplinary research by sustaining scientific excellence to meet growing challenges in this type of disease. We will build on synergy and complementarity with international centers of excellence and their expertise. The institute will be a catalyst for education, and research collaborations among current and future dedicated scientists, engineers and clinicians who seek to understand the molecular basis of cancer resistance to treatment and to improve the immunotherapy approach using innovative and integrative approaches and ultimately leading to the development of cancer personalized medicine.

Prof Salem Chouaib

Vice Chancellor for Research

Director-Thumbay Research Institute for Precision Medicine

We invite you to visit our website to learn more about our vibrant center.

“

We believe that quality is a never ending process and a journey where the destination keeps moving.

”

Vice Chancellor for Quality & Global Engagement

We are living in a time when the number of higher education institutions in UAE and around the world has witnessed a great deal of expansion.

At Gulf Medical University (GMU), we decided to differentiate ourselves by putting special emphasis on the quality of our academic programs and the overall quality of the educational experience we provide. Our pursuit of quality starts with the quality of the faculty we recruit and the students we accept. We believe that quality is a never ending process and a journey where the destination keeps moving.

Quality goes hand in hand with accreditation. GMU and all of its academic programs are accredited by the UAE Ministry of Education. Many of our programs are

also accredited by international accrediting bodies and organizations. We engage in partnerships with universities around the globe in the USA, Europe and anywhere, where quality is at its best. Our global partnerships include joint degree programs, dual degree programs, student exchange and Summer research internships. Through our global engagement with top institutions we rub shoulders with our international peers and engage in best practices in health professions education and provide our students with the highest level of international standards in all of our academic programs.

Please take the time to visit our website and feel free to email us with your questions, thoughts and suggestions.

Prof. Sherief Khalifa

Vice Chancellor for Quality & Global Engagement
Dean, College of Pharmacy

Brief History of Gulf Medical University

Our Mandate

“

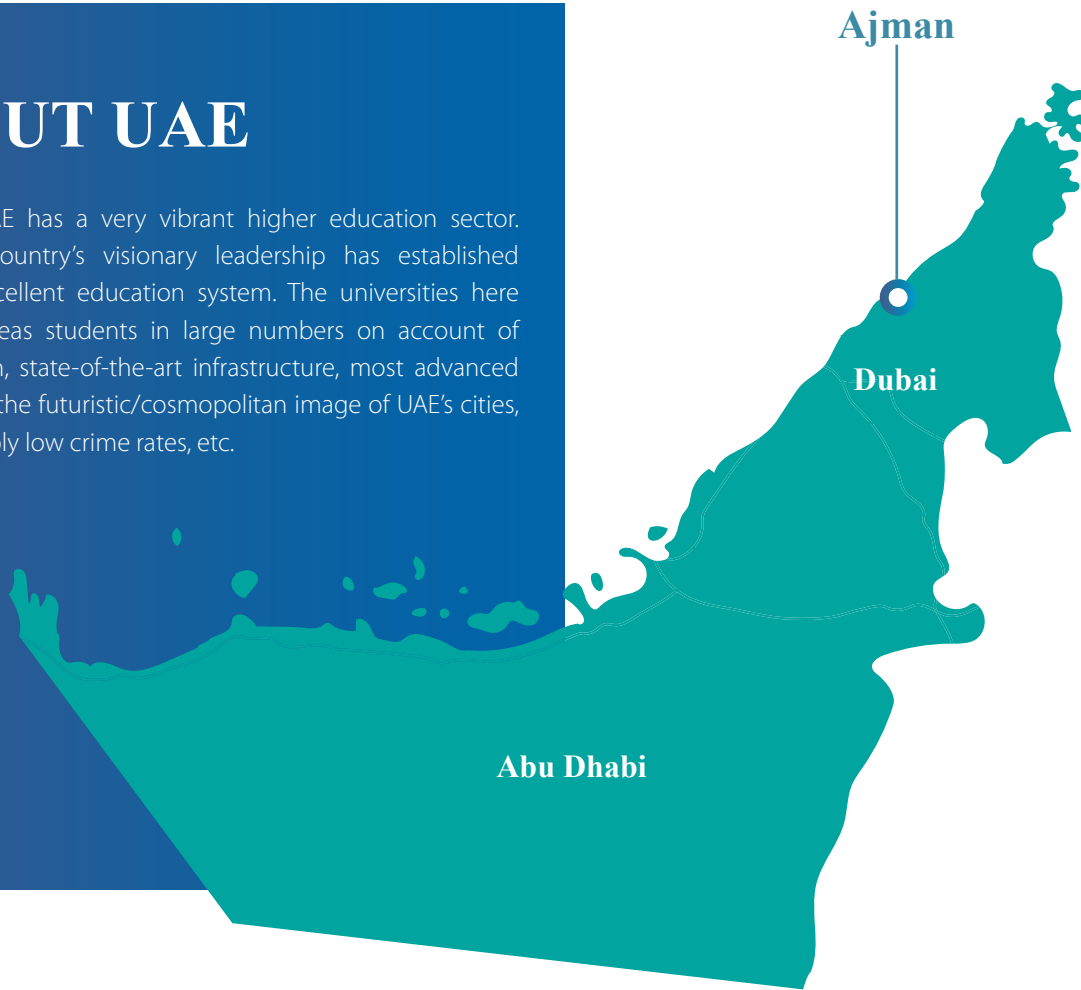

Develop leaders in health care services who can respond to the country, region and global fast growing healthcare needs.

Why Study in the UAE?

ABOUT UAE

The UAE has a very vibrant higher education sector. The country's visionary leadership has established an excellent education system. The universities here attract overseas students in large numbers on account of their modern, state-of-the-art infrastructure, most advanced curriculums, the futuristic/cosmopolitan image of UAE's cities, the remarkably low crime rates, etc.

The UAE has earned the reputation of being a very safe and hospitable place, welcoming people from various cultures, ethnicities and nationalities. The standard of living in the country is very high. Students in the UAE get to meet, interact and bond with people from more nationalities than any other place in the world, which in turn helps them develop a global outlook. The UAE has excellent air-connectivity, and its airports are among the busiest in the world. Moreover, the country also offers excellent employment prospects with leading international corporates.

The UAE has a rich cultural heritage and traditions, as well as breathtaking landscapes, beautiful beaches and amazing skylines, which makes it a destination worth exploring. Dubai is home to the most amazing modern-day wonders such as the Burj Khalifa – the tallest building in the world, the Burj Al Arab, the Palm Islands and the skyscrapers and marvelous malls. The country also offers several exciting avenues for the adventurous, such as water sports, parachuting, trekking, desert safaris, camel riding, etc.

One of the best things you get to experience in the UAE is the warmth of the Arab hospitality. Arabs are wonderful people who heartily welcome everybody from all over the world. No wonder that the country is regarded as one of the best places to live and work.

Quality Teaching

At GMU, the emphasis is always on ‘learning through doing’. Highly qualified academicians and experienced practitioners train the students.

The University presents a dynamic curriculum, which provides excellent clinical training, integrates the basic sciences with clinical experience, and utilizes modern technology. Teaching methods include problem based learning, team based learning, virtual patient interactive learning, simulation based

learning and strong clinical exposure with early patient contact from year one. Our emphasis on research and clinical training drives us on the path to emerging as one of the leading research-based universities in the region.

Virtual Patient Learning

Gulf Medical University’s Virtual Patient, secures Gold and Silver at USA’s Reimagine Education Awards

The Virtual Patient Learning (VPL), a problem based learning innovation in medical education, an artificial Intelligence based application, which was developed by Gulf Medical University and a leading Swiss Technology Company.

VPL secured top positions regionally and globally at the 2017 Reimagine Education Conference & Awards in the United States.

We employ our Own Graduates

“GMU graduates are among the most employable healthcare professionals in the region. The research-based approach to learning, early exposure to clinical cases and patients, and being mentored by some of the leading professionals-cum-academicians gives GMU graduates the competitive edge over the others.”

GMU alumni are pursuing high-flying medical careers in U.S.A, U.K, Middle-East, Canada, Australia, India, and Pakistan etc. Many of our students also enroll for higher studies, in their chosen areas of specialization.

Many of our graduates are admitted to U.S medical schools for further training.

GMU Startup Lab is intended to serve as a platform to equip GMU alumni and students with the knowledge and

understanding to get their business ideas up and running. through this, the university will support brilliant business ideas providing assistance on networking, insight, funding and documentation. GMU Startup Lab initiative will also volunteer customized support, providing access to funding and investments, referrals, on-campus office location, guidance and mentoring and legal compliance.

What Sets GMU Graduates Apart?

- Early Exposure to clinical cases and experience with patients from diverse ethnic/cultural backgrounds
- A robust outcome-competency based curriculum aligned to international competency framework
- Experience with cutting-edge research infrastructure and facilities
- Global exposure gained from Elective Program
- GMU's prestigious accreditations and international collaborations, giving wide recognition to its programs

GMU - Your partner
in a transformative
journey..

THUMBAY GROUP SALUTES THE LEADERS OF THE COUNTRY

Established in 1998, the Gulf Medical University (GMU) today attracts students from over 75 countries and employs faculty and staff from around 25 countries. Necessitated by the demand to train GMU's graduates, Thumbay Group set up its first teaching hospital in Ajman, which was inaugurated on 17 October 2002. Today, there are six teaching hospitals operational under Thumbay Group, located at Dubai, Ajman, Sharjah, Fujairah and Hyderabad-India.

What started in 1998 with the establishment of the Thumbay Group at Ajman, UAE by its founder, a visionary and third generation entrepreneur from India, Mr. Thumbay Moideen, blossomed into a diversified group with operations in Education, Healthcare, Medical Research, Diagnostics, Retail Pharmacy, Health Communications, Retail Clinics, Wellness, Nutrition Stores, Hospitals, Real Estate, Publishing, Trading, Marketing & Distribution, Medical Tourism, Events, Media and Technology.

“ This is why we exist
This is why we are different ”

HEALTH Magazine was launched in 1999, as a health & lifestyle magazine for the family. Published bi-monthly, this BPA-audited bilingual magazine is widely read in the region.

The Health Communications Division (HCD) of Thumbay Group was launched in 1999 with the aim of advancing the quality of healthcare by optimizing the experience and process of healthcare communications through education and partnerships.

Thumbay Medical Tourism (TMT) was set up to support overseas patients of Thumbay hospitals and clinics right from the point of enquiry through admission and discharge, providing the complete scope of services for hospitals from outside the UAE.

Thumbay Group's resolve to provide high-quality healthcare at affordable costs led to the opening of a chain of family clinics, Thumbay Clinics throughout the UAE. The first clinic was opened in Dubai, on 9 September 2015. Clinics are now operational in Dubai, Ajman, Sharjah, Umm Al Quwain and Ras Al Khaimah.

Thumbay Pharmacy was launched in 2002. Today, the network has around 50 outlets at various locations in the UAE and Hyderabad - India. The brand is driven by its motto, "the right medication at the right time."

Research Center Thumbay Research Institute for Precision Medicine (TRIPM)

Prof Salem Chouaib
Vice Chancellor - Research
Director - Thumbay Research
Institute for Precision Medicine

Prof. Salem Chouaib, Director – Thumbay Research Institute for Precision Medicine, completed his undergraduate studies at the University Pierre and Marie Curie (Paris VI) and Pasteur Institute (Paris). He received his PhD in immunology, (laboratory of Jean Dausset, Nobel prize in medicine) in 1983 and his higher doctorate (doctorat d'état es sciences) in 1986 from the same university. He joined the Memorial Sloan Kettering Cancer Center in New York where he undertook a post-doctoral training in Human Immunogenetics Laboratory. In 1986, he was appointed as a research associate at the French National Institute of Health and Biomedical Research (INSERM) and joined the tumor biology department at the Institut Gustave Roussy. For more than twenty years, he was leading an INSERM Research Unit (tumor immunology). His research was constantly directed at impulsing the transfer of fundamental concepts in clinical application in particular in the field of cancer vaccine and cancer immunotherapy.

Leading the Innovation

The newly created Thumbay Research Institute for Precision Medicine will establish an interdisciplinary basic and translational cancer and diabetes research program to meet growing challenges facing UAE health care providers dealing with the increase in cancer burden and diabetes disease. It will focus its activities on comprehensive, translational research and personalised medicine, aims to become a centre of excellence and a leader in developing personalised medicine in the region. The centre will concentrate its activities on the development of state-of-the-art research technology platforms (liquid biopsy, NGS, functional genomics, imaging, gene editing) fundamental to position the centre in the international scene research field and as a regional leader in personalized cancer immunotherapy. Our ultimate goal is to position GMU among the leading research universities and a national model for medical education in the region by integrating innovation through research.

Relevance of the Centre for the University and the Hospital

The TRIPM will serve as a bridge linking scientists, faculty members and clinicians who will work together in a synergistic manner in the frame of a well-focused program in order to reach scientific excellence in the research domain. We are building the most favorable environment for investigators and teams at the level of science, structure and equipment in order to make the TRIPM the most suitable environment for cancer research and diagnosis and a challenging initiative for seamless collaboration between research, education, healthcare and industry.

Research Areas & Departments

Cancer Immunology and experimental oncology
Tumor genetic instability and immunogenicity
Biomarkers and Functional genomics

The scientific program will be designed to foster interactions between scientists from academia and Industry and will involve a multidisciplinary approach by basic scientists, clinicians and epidemiologists. In order to contribute to mechanisms which would transform research breakthroughs into innovative products, the research teams will be working in partnership with international institutions to collaborate and achieve excellence towards producing quality research.

“

**When your vision

anything is possible**

“

We Provide authentic educational opportunities for all categories of health professional students, preparing them to successfully pursue postgraduate trainings and continuous professional development.

Student Testimonials

This is what some of our graduates had to say about their experiences at GMU:

“

On joining GMU, I gained valuable insights into the latest healthcare trends and the right patient approach. The program was innovative, integrated, comprehensive and patient-centered.

”

Dr. Zoya Liaqat Ali,
Pharm D – 2010 Batch

“

GMU has been a mesmerizing experience, with great batch mates, lots of knowledge, love and discipline. It has been the best place to achieve my ambitions.

”

Ms. Danavanthi Sadashiv Bangera
MPH – 2013 Batch

“

The faculty at GMU not only imparted their knowledge, but also instilled in us love & curiosity for the subject.

”

Dr. Gowri Karuppasamy,
MBBS – 2008 Batch

“

The course I studied at GMU fulfilled all the requirements to equip me as a full-fledged dentist. I feel lucky to have studied at GMU.

”

Dr. Manal Jabir,
DMD – 2008 Batch

“

A unique feature of our dentistry course was that it was very clinic-centric, because of which we gained a lot of clinical exposure. After completing the course, I now feel like a competent dentist ready to take on the challenges in my field.

”

Dr. Sanjay Kumar Jyothish,
DMD – 2010 Batch

“

GMU and its affiliated teaching hospitals have the potential for greater and bigger accomplishments.

”

Mr. Ishaque Sayeed Mohammad,
MS CP – 2012 Batch

“

The infrastructure at GMU and the quality of training in GMU and affiliated hospitals have been outstanding.

”

Dr. Fathima Mohammed Majeed Ali Almatrooshi,
Pharm D 2009 Batch

“

The support extended by the doctors at GMU and affiliated hospitals has been invaluable. Their incessant encouragement has been crucial in helping me realize my life long ambition.

”

Dr. Marwah Abdulwahid Amarah
Pharm D – 2010 Batch

“

When I joined GMU, I came here as a shy, reserved and nervous introvert with very little knowledge. Today, I walk out of this great University as a bold, courageous and confident graduate.

”

Dr. Tayyaba Mehmood,
MBBS – 2009 Batch

“

During my GMU years, I've had the chance to meet people from different nationalities and to appreciate their cultural diversity, which helped foster a sense of globalization. I have no words to explain how tremendous this experience has been.

”

Ms. Judditt Anna Mohan,
BPT – 2010 Batch

“

The quality of education at GMU helps graduates like us to stand out in the professional world.

”

Ayesha Mohammed Al Nuaimi
BPT 2012 batch

“

GMU has become a lifelong learning centre that continues to support me throughout my professional career.

”

Dr. Amna Alsari
PharmD 2016 batch

“

The university not only gives students a good education, but also give us the opportunity to train at the hospital, gain some experience and then go ahead from there.

”

Dr. Baljinder Singh
MBBS 1999 batch

Admissions

All applicants are required to apply online and submit online application with the relevant documents.

Required Documents:

- High School Transcripts of Grades 10, 11, 12 - Chemistry, Biology, Physics /Math, English; Attestation of Education documents by the MOE, UAE or UAE Embassy in Home Country when taking admission
- Equivalency Certificate from the Ministry of Education, UAE
- Passport copy and Emirates ID Card and family Book (if UAE Residence)
- Valid English Proficiency Score sheet (EmSAT/IELTS/TOEFL etc.)
- Passport-size (2 Inch x 2 Inch) Photographs x 12
- Good Conduct Certificate issued from High School.
- Health Certificate (medical fitness)
- Motivational Letter
