WHY STUDY MASTER IN HEALTH PROFESSIONS EDUCATION AT GULF MEDICAL UNIVERSITY?

The program is a joint Master in Health Professions Education offered as a blended learning with cooperation between Foundation for Advancement of International Medical Education and Research (FAIMER®) USA and The Centre for Medical Education in Context (CenMEDIC), United Kingdom. The diploma level courses are administered by CenMEDIC and follow the quality assurance guidelines and policies of Gulf Medical University.

PROGRAM

The aim of this international program is to help develop leaders in health professions education who can transform education and support the development of health professionals for the 21st century. The graduates will be able to design curricula, understand change management & leadership, facilitate learning, assess learning, understand research process and how to interpret research data to professional standards.

FAIMER

Foundation for Advancement of International Medical Education & Research (FAIMER) is a leading International Institution headquartered in Philadelphia, United States committed to improving world health through education.

FAIMER is promoting excellence in international health professions education through programmatic and research activities.
